**WE'RE NOT JUST MOVING MONEY
WE'RE MOVING POTENTIAL.**

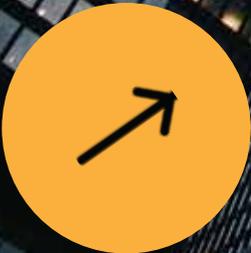

We believe in putting capital where it truly matters: into real, working SMEs that drive the backbone of our economy.

Our approach is simple but powerful—we fund real businesses, not paper ventures. These are the small and medium-sized enterprises (SMEs) that create jobs, fuel communities, and bring genuine value to their operators. By backing these businesses, we're not just chasing returns—we're building something that lasts.

And while every business journey comes with its share of risk especially from unforeseen circumstances—we operate with transparency, sound judgment, and a sharp focus on protecting our investors' interests.

OUR APPROACH

INVESTING WITH PURPOSE, PARTNERING FOR GROWTH

Our Mission To fund what's real. We are on a mission to promote responsible and result-driven investment practices. Through strategic investments in real-world SMEs, we help create employment, support entrepreneurs, and deliver value where it's needed most—on the ground.

Our clients are empowered through smart risk management, diversified business-backed opportunities, and expert mentoring. It's not just about capital growth—it's about building real businesses, generating long-term impact, and growing together with the people we support.

We value relationships as much as results, staying accessible and investor-focused while offering insight, guidance, and dependable support that extends beyond transactions, building long-term partnerships based on trust, shared goals, and financial clarity. Our commitment to transparent communication ensures that clients are always informed, allowing them to make confident decisions, while our proactive approach allows us to adapt to evolving market trends and address challenges together as we pursue mutual success.

**OUR
STORY**

From One Shop to a Growing Empire

Our journey began in 2018 with the launch of Baba Mini Mart, our very first step into the world of business. In 2020, we expanded into grooming services with Baba Barber Shop, followed six months later by Bravo Barber Shop.

Around this time, we met Mrs. Sabeen Ahmer, whose support and shared vision helped us take the next big step — launching the Baba Group of Companies.

From there, we continued to grow: opening Baba Gents Salon Tecom, launching Tasty Baba Restaurant in Al Barsha in 2021, Baba Laundry in 2022, and later that year, Baba Al Bahar, a seafood restaurant in Jumeirah.

Our salon network expanded rapidly with new branches in Dubai Silicon Oasis, Barsha Heights, and more. Today, we proudly operate 13 gents salons across Dubai, known for quality and service.

In January 2025, we entered the trading sector with our General Trading business. Most recently, we launched Baba Veston Investment Company — a bold new chapter focused on empowering businesses and communities.

OUR TRUSTED INVESTED PARTNERS

Proudly rooted in the United Arab Emirates for nearly a decade, we bring the comfort of home with healthy, flavorful and speciality cuisine.

Enjoy the delight of modern, wholesome food and exclusive products available only at our Café
